### MAY ASK FOR OFFICE.

**Talk of Fairbanks Wanting to Go to United States Senate Again.**

Indianapolis, Aug. 28.—Vice President Fairbanks' offer of his services to the state Republican campaign committee is viewed with peculiar significance to day, in view of the fact that unless something unforeseen arises, he will retire from public life on next March. This "something unforeseen" is what is puzzling the politicians. His offer is construed by many to mean that he wants to get in touch with his "constituency" again with the object of asking further honors at Indiana's hands.

When Fairbanks gave Chairman Hemmingsway the opportunity of becoming senator by accepting the vice presidential nomination four years ago, it was said that should Fairbanks' ambition for the presidential chair be defeated, Hemmingsway would make it possible for the tall Indian to return to the senate. Many believe that it will now be put up to Hemmingsway to make good.

### THINKS SELF ILL AND DIES.

Chicago, Aug. 28.—Despondent because of an illness that was largely imaginary, prevented her marrying George M. Mansfield, a traveling salesman of El Paso, Texas, Miss Bary Field Werne, 21, a pretty and talented young woman, is to day a corpse, having committed suicide by walking into the lake. It was several hours before the body was identified as the daughter of Henry L. Werne, cousin of William A. Field, general superintendent of the Illinois Steel company. The girl graduated from a private seminary in El Paso and broke down from over study several months ago.

### DEATHS.

San Diego, Calif., Aug. 28.—Eugene Semple, former governor of Washington Territory, is dead, aged 68. Semple was a son of the late Justice Semple of Illinois, and was born at the American legation at Bogota, Colombia, where his father was then American minister. Cleveland appointed him governor of Washington (then a territory).

Poland, Springs, Me., Aug. 28.—George P. Rowell, of New York, prominent for many years in newspaper advertising business, died here to night, aged 70 years.

### BANKS CLOSED.

St. Paul, Minn., Aug. 28.—The state bank of St. Paul and the Citizens Savings bank were closed to day by Public Examiner Schaeffer because of refusal of the St. Paul Clearing House association to clear for banks. Schaeffer said Minneapolis men were negotiating for stock of the two institutions and might be successful in securing control of them by Monday. The banks, he said, are solvent.

## MYSTERIOUS MURDER

Atlantic Police Unable to Clear Up Tragedy Committed There Thursday Night.

Atlantic City, N. J., Aug. 28.—Little definite progress has been made up to a late hour to night in clearing up the mysterious shooting of Chas. E. Roberts, a wealthy Baltimorean, while riding last night on the board walk in a wheeled chair with Mrs. W. S. G. Williams, also of Baltimore. The police refuse to accept the declaration of friends of both parties that the shooting was done by a highwayman to whom Roberts refused to deliver money. The authorities look upon such statements as a reflection on the manner in which the promenade is policed and visitors protected.

Mrs. Williams, it is stated, positively declares the shooting was done by a masked man after Roberts had refused to deliver money. The colored porter, who was wheeling the chair, is in jail and if he knows the man declines to make known his identity. Detectives went to Baltimore in an effort to see Williams, who returned from Europe last Tuesday, and who, it is said to be in his country home near that city. Reports received to night indicate they have so far failed to see Williams or get any word from him.

### LAST TRIBUTE OF RESPECT

**Body of Baron Sternburg Placed in Family Mausoleum.**

Luetzchena, Aug. 28.—With solemn and impressive ceremonies the body of Baron Sternburg, late German ambassador to the United States, was to day placed in the family mausoleum at Castle Luetzchena. The funeral service was characterized by marked simplicity. Besides the baron's relatives and representatives of Emperor William and King Frederick August of Saxony, American Ambassador Hill, who represented President Roosevelt; T. St. John Gaffney, American consul general at Dresden, and a number of ministers of state and old comrades of Sternburg were present. The population of the entire country also gathered to pay a last tribute of respect to the dead diplomat. The oration was by Pastor Meltzer.

### HELD CONFERENCE

**Hitchcock and Other Leaders Talk About Congressional Situation With Roosevelt.**

New York, Aug. 28.—Chairman Hitchcock, of the Republican national committee, had a long conference to night with James S. Sherman, Republican nominee for vice president, Representative McKinley, chairman of the Republican congressional committee, and Representative Loudenstlager, secretary of committee. The conference began upon the return of these gentlemen from Oyster Bay, where they were called by President Roosevelt for a talk about the congressional situation. It was very late before the conference concluded, but the list of congressmen who are to be invited to make speeches in both national and congressional campaigns was completed. It is said the president displayed keen interest in arrangements being made for a vigorous campaign in all parts of the country to retain the present Republican majority in the house.

### MANY INDICTMENTS

Springfield, Aug. 28.—With a total of 78 indictments returned the grand jury empaneled to investigate the recent riots is still in session and probably will not adjourn before the latter part of next week. Seventeen bills were presented to day.

William Phillips, an ex-police officer, was indicted on charge of attempt to commit arson and also riot. Two more indictments were brought against Ernest Humphrey, one of the alleged rioters already under indictment for the murder of William Donnegan.

Roy Young was indicted for arson.

### SIXTEEN KNOWN DEAD.

Augusta, Ga., Aug. 28.—The Chronicle gives the names of sixteen known dead and estimates the total number of flood victims at fifty.

## IMPROVEMENT IS GRADUAL

MERCHANTS MORE DISPOSED TO REPLENISH STOCK.

**Western Cities Show New Life in Buying Fall and Winter Goods—Caution Still Noted the Country Over.**

New York, Aug. 28.—Bradstreet's says: Some western cities note evidence of new life in buying fall and winter goods. Incidentally some new stocks are reported being bought at Chicago, which is rather in contrast with a year ago, when the coming depression had already begun to make for precaution in embarking in new enterprises.

Despite improvement, however, the volume of business doing does not equal that of last season and conservatism and caution are still visible. Retail trade is dull the country over, though slowly, but current production is still below anticipations in many instances.

Business failures 232, against 167 in the like week in 1907; Canadian failures 27, against 29 last year. Wheat, including flour, exports 4,526,000 bushels, against 3,809,000 this week last year; nine weeks ending August 27, 27,298,000, against 26,285,000 in corresponding period last year.

Corn exports 39,000 /bushels, against 798,000 in 1907; nine weeks ending August 27, 453,000 bushels, against 12,631,000 same period last year.

### Dun's Report.

Dun says: Gradual improvement continues especially in respect to percentage of manufacturing plants in operation and country merchants are more disposed to replenish stocks. The retail trade is seasonably quiet, except where sales are stimulated by clearance sales, but wholesale and jobbing houses are doing a good fall business, although collections are irregular.

On the whole, crop prospects are satisfactory, and producers obtain unusually high prices. Contracts are placed more freely for steel and numerous small contracts aggregate a fair tonnage, the output of both pig iron and finished steel steadily increasing. Buyers are more numerous in the local jobbing market, but sales still far behind a normal season, except in special cases, where bargain prices are named in order to distribute goods. While the shoe trade has shown much improvement of late, shipments still fall short of the same week last year.

### CHAUTAQUA HOME COMING.

**Shouts and Other Prominent Railroad Men Delivered Addresses.**

Centerville, Iowa, Aug. 28.—Theodore P. Shonts delivered the principal address at the chautauqua home coming to an immense audience this afternoon. It is generally believed the reconciliation between the artist and his wife will cause the case against Earle to be dropped. Earle denied himself to interviewers to day.

The son of the president saw the flying team a full half mile ahead of him and putting spurs to his mount, gave pursuit. Within a three quarters of a mile run he was neck and neck with the runaways, and a quarter of a mile further had stopped them. ## NEEDS WATER BADLY.

A business man on the square yesterday was remarking how badly the park needed water. The grass in spots is dead and with a few more hot days will look most unsightly. It was suggested that the city might connect with the mains and each morning give it a good shower.

After dinner was over, Fred Eads photographed the group and then many old-time chats were had until 4 p. m., when they all retired to the lawn and ate watermelon in the good old-fashioned way. ## WE WOULD RATHER HAVE

The reputation of giving our customers full value for every dollar paid to us than that of trying to make them believe we are giving them something for nothing. It seems to us better to offer uniformly a square deal rather than pander to the trading instinct by sliding a customer up and down on a scale of fictitious prices until that customer is satisfied, that by his own shrewdness, he has discovered the proper landing place. "Real value" and "right prices" belong together, and when so placed, and accepted, are promoters of loyal friendship between customer and dealer.

We seek your friendship, but not your disappointment, and whenever for legitimate, bona fide reasons discounts are possible, we are glad to offer them.

## Busy Money

Money in the bank is always busy money. It is the main function of a bank to keep the stock of money in its territory busy, thereby stimulating and promoting business enterprises which make the community prosperous. The bank gathers up idle money and gives it activity. Money thus put to work becomes a power in industry and commerce.

If your money is idle, bring it to this bank and we will make it profitable for you, for the community and for the bank.

## HOW THEY COMPARE.

So much has been said about the similarity of the two platforms of the leading parties a person is led to turn to the two candidates for comparison. The most ardent friends of Mr. Bryan cannot claim that he manifested any great or unusual ability while endeavoring to practice law in this city. In fact, it might be difficult to establish the fact that he displayed even average capacity in that respect and the Journal is reliably informed that the gentleman made no greater success as an attorney in Lincoln, Neb. He ardently espoused the cause of Democracy, as he had been reared in that faith, and never departed from it. In 1884, when Cleveland was nominated for president, the writer heard Mr. Bryan say: "I love that man," meaning Cleveland, and then he went on to mention a long list of virtues possessed by the nominee. The principles of Cleveland never changed a particle nor did he depart a hair's breadth from the platform he laid down at that time and yet how bitterly was he denounced by Mr. Bryan and his followers. "Judas Iscariot," "Benedict Arnold," "traitor," "betrayor of his trust" and a host of similar choice epithets were bestowed on the gentleman. Nothing but free trade would save the land from financial perdition, Mr. Bryan preached vehemently at first, and when that was made ridiculous by history, he turned to free silver as a panacea for all monetary ills which had been brought about by the free trade so ardently advocated by himself. Turning away from the child he had so hugged to his bosom, he took up the new toddler, free silver, and rent the air with appeals to the nation to coin the white metal at 16 to 1 without waiting for the advice or consent of any other nation. The Republican party said there was plenty of gold in the ground for all needed purposes and if the country would stop tampering with the principle which the civilized nations of the world had abandoned, or would be glad to abandon, and pursue the search for the yellow metal all would be well and the people took the party at its word and the result was just as foretold, the greatest era of prosperity the world has known. Seeing himself made ridiculous by the facts of history he offered the absolutely silly excuse that the increased output of gold had justified his position, a proposition so utterly absurd as not to merit attention for the world knows, and Mr. Bryan knew then and knows now that had his principles prevailed in '96 there would have been the greatest contraction of currency the nation ever saw as gold would at once have ceased to circulate.

Beaten again by history he turned to the initiative and referendum business a while, but it didn't take very well; he paid some attention to the supreme and other courts, but that didn't prove popular, so he thought

he saw a "paramount issue" in so-called anti-imperialism, an idea, as a gentleman of this city pertinently remarked, beneath contempt. He then turned his attention to horse shows and county fairs for a while, dividing the gate receipts or charging so much a day for his presence, though he made no issue of the efforts in that direction, so that when the party thought two defeats in succession with him for leader would do for a while he gave the Democratic nominee of four years ago a half hearted support and permitted his followers to knife the sage of Esopus in good shape. Then he went abroad and returning decided that so bad a man as Roger Sullivan must get off the national committee, admit himself to be a rascal and retire to innocuous desuetude, while Tom Taggart and various other bad men should also take a back seat, while Mr. Bryan would announce as his new issue the government ownership of railroads, but that raised such a howl that it was quickly abandoned. Years before the Republican party enacted the Sherman anti-trust law and when a Republican president began its vigorous enforcement Mr. Bryan hastened to claim it as his own most unjustly. Left without a paramount issue he is now putting forth a new one, the government guarantee of national bank deposits, such an evidence of centralization as would cause the bodies of Calhoun and other great Democratic lights to turn over in their graves could they hear of it and an issue which has been ably exposed by Taft as well as by eminent financiers and political economists. He has taken Sullivan, Taggart and the rest to his bosom; has gone to Kentucky to help out the infamous Beckham, whose own party kicked out, and now he poses as the man whom the people should choose for president. No attack is made on the gentleman's moral character, but the facts of history have been given and the Journal dares proof to the contrary.

How different the career of the Republican nominee for president. A fine success as a college student, a greater one as a lawyer and a jurist, he entered political life for the welfare of his country. From the start he has consistently held to the ideas which have been successfully wrought out in the history of the country. In the management of the immense interests committed to his care he has shown conspicuous ability. The Panama canal, the Philippines, Cuba, Japan, all testify to his eminent ability in all respects. Compared with his opponent he is as a giant standing besides a hillputian. The people will not hesitate to choose him for their chief executive officer.

Dame Fashion says: "Men may wear most any shade hat they choose. Frank Byrns is showing the leading shades in many shapes."

## You Can Test the Kidneys

Let the urine stand for twenty-four hours and if at the end of that time there are deposits of a brick dust variety or if the water becomes smoky and cloudy you may be sure the kidneys are deranged.

Another very marked symptom of kidney disease is pain in the small of the back.

The letter quoted below tells how these symptoms were overcome and kidney disease cured by Dr. A. W. Chase's Kidney and Liver Pills.

"Because of their direct and combined action on both liver and bowels these pills cure the most complicated cases."

Mr. W. H. Cook, R. F. D. No. 4, Lodi, Wis., writes: "For many years I was troubled with kidney disease and several doctors told me my conditions were very serious but they could not cure me. Then I turned to Dr. A. W. Chase's Kidney and Liver Pills with excellent results. The sediment disappeared from the urine, the pains left the back and loins and I am feeling well."

## INSTALLING TELEPHONE SYSTEM

Burlington Has Gang Here Putting in Wires for Company Use—Arkansas Division of Rock Island Road Bars Cigaret—Other Notes of Interest.

W. O. Vance of the Western Union Telegraph company is in the city with a gang of fifteen experienced linemen, and is engaged in putting up telephone lines to be used by the Burlington in its new telephone dispatching system. The line is to be run as far south as Herron and is at present completed as far north on the Beardstown division as Pisgah. The work is being done by experts in a thorough and systematic manner, and will be completed as far as Herron in thirty days.

The system will be in working order as far west as Denver in six months and when finished will be the most up-to-date dispatching system in existence. Telephones are not being used much in such work at present, but it is expected that within a few years all the principal railroads of the United States will have discarded the old, cumbersome and expensive telegraph system in favor of the telephone.

This will mean an increased saving by the roads, as all such expenses as are incurred by special operators and telegraphers in addition to the regular agent will be done away with. It is believed by experts that many wrecks and accidents, unavoidable under the present method will be avoided when the dispatchers are using the telephone. It is rumored in certain quarters, semi-authoritative, that the Alton-Clover Leaf and Frisco systems are seriously considering installing telephones for the use of their dispatchers.

**Goes Back to Old Position.**  
On September 1, E. H. Junod, for many years trainmaster of the Chicago & Alton, with jurisdiction extending from Bloomington to Granite City, and from Springfield to Peoria, will retire voluntarily from the position and will resume his old duties as a passenger conductor, which position he held for many years previous to his appointment as trainmaster. Mr. Junod will be given charge of the Capital City Flyer, and his run will be between Springfield and St. Louis. He has been a trainmaster off and on ever since the world's fair, but during all this time the old desire to take the road as a passenger conductor would not down, and he now quits the position to resume active work in the running of trains.

**Must Not Disturb Sleepers.**  
Foghorn switchmen of the Alton, who are accustomed to exchanging signals with their voices instead of their lamps, have been called down by Superintendent Mulhern. He says that there are complaints that at points where cars are taken off or coupled on to through trains during the night, that some switchmen whoop loudly, while in some instances cars are coupled with a jerk, awakening the occupants of the sleepers. The superintendent calls the attention of all concerned to the fact that patrons pay for the privilege of sleeping, and should not be disturbed in this manner. More care must be exercised so that the coupling will not be made with excessive force. The air must be cut in all instances, and after the coupling is made, and engineers must use caution and not jerk the cars unnecessarily. Otherwise discipline will have to be enforced.

**Dame Fashion says:** "Men may wear most any shade that they choose. Frank Byrns is showing the leading shades in many shapes."

There will be a meeting of the Ladies' Aid society of the Centenary M. E. church this afternoon at 3 o'clock at the church.

## LUNATICS ARRIVED HOME

WILL MEET OSKALOOSA THIS AFTERNOON.

Trip Was Rather Disastrous Owing Men in Bad Condition—New Outfielder Expected to Report To Day—Rain Interferes With All Games Yesterday Except Two—Notes of League.

HOW THEY STAND				
	Played.	Won.	Lost.	P. C.
Waterloo	107	72	35	.673
Burlington	104	69	35	.664
Quincy	110	65	45	.591
Keokuk	104	49	55	.471
Jacksonville	107	50	57	.467
Oskaloosa	107	45	62	.420
Ottumwa	110	40	70	.364
Kewanee	108	39	69	.361

**WHERE THEY PLAY TO DAY.**  
Oskaloosa at Jacksonville.  
Waterloo at Keokuk.  
Kewanee at Burlington.  
Ottumwa at Quincy.

The local baseball squad arrived home from Keokuk Friday evening over the Wabash at 8:50 o'clock after a trip of six days, during which time they played seven games, three at Burlington and four at Keokuk, only winning two out of the number. The game yesterday being called off on account of rain. Although the trip was a rather disastrous one and resulted in placing us one place lower in the percentage column the fans should not be discouraged, as the team is again at home for seven games and by the time they leave on their last trip abroad should again be resting in fourth place.

The games the locals lost were all close and had it not been that the odds were against them, they would have, without a doubt, won at least half of them. Townsend received an ugly wound in the second game at Burlington and has been out of the game since. Gray, who has been doing the receiving since, has done well, but is not in the best of health himself, while several of the other men have not been feeling well. In left field we have been weak for some time and the place has been filled by a different pitcher each day, but Manager Berte has announced that has at last secured a man for this position that he expects will strengthen the team a great deal in the person of a player named Troutman, who has been playing in the Central league. He has been playing in Terre Haute and comes well recommended. Troutman is expected in the city this morning and will probably be seen in the game this afternoon.

The locals also did not receive the best treatment in the world at either Burlington or Keokuk and it is understood that the veteran twirler who pitched for the locals for several years and now bears the title of umpire, Dad McCarthy, by a few rank decisions, robbed us of the last game at Burlington.

To day opens the last series to be played on the home grounds and it is up to the fans to be present at all the games and with some good old-fashioned rooting there is no reason why we should not take five of the seven games to be played here; we've just got to and it's up to the fans to do their part. To day Oskaloosa comes for four games, the postponed game having to be played. Berte's men have made a very good record against the Quakers on the local grounds, having won four out of the five games and there is no reason why we can't take three of the four games this time. With a good, new left fielder and with Townsend back in the game for a least the present series, the team will be

much strengthened. Tuesday Ottumwa comes for three games and these will close the season.

O'Hearn will probably do the heavy work for the locals to day. He is in the pink of condition and should get away with his game. Let's all go out to day and see the boys win, for, remember, only six more games after to day.

Quincy, 10; Oskaloosa, 4.  
Quincy, Aug. 28.—(Special.)—The hitting of both teams was the feature of to day's game. The score:

R. H. E.	
Quincy	10 12 2
Oskaloosa	4 13 5

Batteries—Horn and Melr; Coates and Moody.

Kewanee, 5; Ottumwa, 7.  
Kewanee, Aug. 28.—(Special.)—Opportunity hitting won for the visitors here to day.

R. H. E.	
Kewanee	5 8 4
Ottumwa	7 8 5

Batteries—Stevenson, Noe and Lage; Simons, Zackert and Cady.

**Will Protest Game.**

Burlington Hawkeye: Having lost yesterday's game, Manager Boyle thought it best to protest the game and have it thrown out if possible. He notified Umpire Newhouse that he would protest the game and gave the umpire a formal paper to that effect. The document will be forwarded by Newhouse to President Justice, who is expected to immediately begin an investigation.

Boyle bases his protest on the claim that Donovan, who pitched with Burlington yesterday, is a big league player loaned against the National association rules, to Manager Egan. It is stated upon receipt of the protest President Justice will investigate the matter and if he finds Boyle's contentions are true the game will be thrown out. It is also stated that the penalty for the "farming" or loaning of a pitcher as suspension of the player and a severe fine for the loaning and borrowing managements.

**Belt Stays With Keokuk.**

Constitution Democrat: Frank Belt, the man who has done more for baseball in Keokuk during the past few months than any other man who has ever been connected with the national game in this city, has been re-elected manager of the team of 1909, the vote of the directors of the club at the meeting being unanimous. This news will be well received by the fans for Manager Belt has found a place in the heart of every person in the city and his conscientious work this season will long be remembered.

The work of Manager Belt while in Keokuk can hardly be fully appreciated, although the fans have demonstrated their trust in him by turning out in larger numbers than ever before, as the attendance figures show that Keokuk stands second in the league.

**Townsend Still With Us.**

Notwithstanding the advance news of our esteemed contemporary relative to Dr. Guy Townsend's return to Creighton Medical college, of Omaha, the long armed and popular catcher is still with us and returned with the team last night. He is suffering a bruised finger, but expected to be in the game yesterday with Keokuk and probably will don the mask to day. We're glad he is back as his work behind the plate is stable. Townsend leaves the latter part of this week to resume his studies in the university.

**Double Header Sunday.**

Jacksonville has a postponed game to play with Oskaloosa and the double header will be played Sunday. The contests will afford the fans an excellent opportunity to witness some excellent playing, for although Oskaloosa is below us several points in the percentage column, she still has hopes of landing safely in fifth place.

**Claus' 20c coffee pleases.**

**Can't Use Cigarettes.**

Employees on the Arkansas division of the Rock Island railroad, who are accustomed to regale themselves with an occasional cigaret, will be obliged to do so "behind the barn" hereafter, according to an order announced yesterday by Supt. Easley.

The order has not been extended to other divisions of the road, however, and the great majority of the Rock Island employees still will be allowed to indulge their fancy for the weed while off duty. The views of Supt. Easley on the habit apparently are not shared by his superior officers, several of whom, it is rumored, sometimes use the paper rolls themselves.

**DAIRYMEN WORRIED.**

**Surprised by Unexpected Visit of Government Inspectors.**

Chicago, Aug. 28.—Dairymen on Wisconsin and Indiana who ship milk to Chicago are said to be much perturbed over discovery that for a week United States government inspectors have been quietly securing samples from these interstate shipments. Many samples are said to have fallen short of requirements of the law and a number to have been pronounced very bad. This is the first time the federal government has made an inspection of milk in Chicago and dairymen were wholly unprepared for the early morning visit paid them.

**FOR WIFE DESERTION**

Sad Episode in What Promised to Be  
a Happy Married Life.

About five years ago Dr. C. F.  
Agnew, a rising young colored physi-  
cian of Harrisburg, Ky., led to the  
matrimonial altar Miss Zenobia  
Muse, daughter of Rev. J. W. Muse  
and wife of South Diamond street, in  
this city. The bride was a handsome  
young lady, of good reputation, while  
the groom was represented as a cap-  
able member of the medical profes-  
sion, so that the union seemed ev-  
ery way suitable and likely to be pro-  
ductive of happiness. Two years ago  
the two moved to this city and the  
doctor hung out a sign on North Main  
street, and according to the story re-  
lated by Elder Muse, the residence  
here was not altogether to the liking  
of his son-in-law, who said he had  
decided to leave Jacksonville and go  
to Dayton, Ohio, to try his fortunes.  
He promised to send for his wife in  
three weeks and that was the last  
she had heard of him directly. In-  
stead of going to Dayton Dr. Agnew  
wended his way to Aurora and there  
located, as his wife and her family  
afterward learned, and thinking a  
man should support his lawful spouse  
Elder Muse and his daughter had  
proper papers executed and Deputy  
Sheriff Wannamaker was sent to Au-  
rora to bring back the alleged faith-  
less husband.

Miss Agnew has lost none of her  
beauty and vivacity during the five  
years which have elapsed since her  
wedding and the Journal has never  
heard the slightest breath or suspi-  
cion regarding her conduct and  
when she appeared in the magis-  
trate's court Friday afternoon she  
looked more like a young girl than a  
woman who had been wedded five  
years.

Suit was brought in Squire Dyer's  
court, but the defendant took a  
change of venue to Squire Reid,  
where the trial was had. J. Marshall  
Miller assisted in the prosecution,  
while Judge F. E. Baldwin repre-  
sented the defense and the justice de-  
cided that the doctor should be held in  
bonds of \$200 to appear before the  
next circuit court and explain his  
conduct.

Dr. Agnew is an intelligent, well  
appearing man and stoutly insisted  
to a Journal reporter that he had  
done nothing worthy of bonds and  
had good and sufficient cause for all  
he had done.

**JAPANESE DOCTORS.**

New Ways to Pay Old Debts in Far  
Japan.

A Japanese doctor, it seems, never  
even dreams of asking any patient, but  
a poor one especially, for a fee, how-  
ever legitimately the money may have  
been deserved, for this proverb is the  
motto of all Japanese physicians:

"When the twin enemies, poverty  
and disease, invade a home, then he  
who takes ought from that home, even  
though it be given him, is a robber."  
"Often," says Dr. Matsumoto, "a doc-  
tor will not only give his time and his  
medicine freely to the sufferer, but he  
will also give him money to tide him  
over his dire necessity. Every physi-  
cian has his own dispensary, and there  
are very few chemists' shops in the em-  
pire. When a sick man calls in a phy-  
sician he does not expect to be pre-  
sented with a bill for medical services. In  
fact, no such thing as a doctor's bill  
is known in Japan, although nearly all  
the other modern appliances are in  
vogue there. The doctor never asks  
for his fee. The strict honesty of the  
people makes this unnecessary. When  
he has finished with a patient a ves-  
ent is made to him of whatever sum  
the patient or his friends may deem  
to be just compensation. The doctor  
is supposed to smile, take his fee, bow  
and thank his patron."

**Remarkable Story**

The story of Mrs. Matilda Warwick, of Kokomo,  
Ind., as told below, proves the curative properties of  
that well-known female remedy, Wine of Cardui.  
Mrs. Warwick says:

**TAKE CARDUI**

**It Will Help You**

"I suffered from pains in my head, shoulders,  
limbs, side, stomach low down, dizziness, chills, ner-  
vousness, fainting spells and other female troubles.  
I was almost dead. Three doctors did not help me.  
At last, I took Cardui, and with the first bottle ob-  
tained relief. Now I am cured. But for Cardui,  
I would have been dead." Try Cardui.

**Chicago Grain Market.**  
Chicago, Aug. 28.—Wheat.—The  
feature was urgent demand for Sep-  
tember by shorts and cash interests.  
Limited offerings of that option  
caused it an one time to sell on par  
with December and at the close the  
premium on latter months was only  
1/4¢. The market opened strong on  
local demand from commission  
houses.

Corn.—Crop reports were more en-  
couraging to holders, especially those  
received from Illinois, Iowa and Mis-

## ONLY GIRL IN CLASS OF 19 MEN

Miss Bertha Gordon, Formerly of  
Jacksonville, Has Risen in Musical  
World; Also Possesses Much Abil-  
ity in Arts and Crafts Work.

Miss Bertha S. Gordon, formerly  
located at Jacksonville, who has  
often visited here, where she has  
many friends, is receiving some nice  
press notices in Cleveland, where she  
is now located. A recent item in a  
Cleveland paper says of this talented  
woman:

"Miss Bertha Gordon, whose noc-  
turne was played on Friday after-  
noon, is a resident of Cleveland, and  
what is more, a composer of no un-  
certain talent. A word of her is lit-  
tling, for some day she will have much  
more than local fame.

Since going to Chicago some years  
ago Miss Gordon has met with un-  
usual commendation in her work.  
Helen Buckley and Holmes Cowper  
have sung her sacred songs. Har-  
son Wilde has played her nocturnes  
for organ. Her cantata, 'The Pass-  
ing of the Swan,' was given in a  
Chicago May festival, with organ,  
orchestra, and a chorus of 1,000  
voices. The symphony is as yet in-  
complete. The adagio and scherzo  
are finished, the first and last move-  
ments only sketched.

Her considerable talent for me-  
chanics led her to study at the Lewis  
Technical Institute. She was the only  
girl in a class of nineteen men, where  
she held her own in the most intri-  
cate details of machine design. Her  
copper work, chairs and tables, etc.,  
accepted in arts and crafts exhibi-  
tions, have achieved honorable men-  
tion and the blue ribbon.

**WORK THAT TELLS.**  
Plenty of It Has Been Done Right  
Here in Jacksonville.

Cures that last are cures that tell.  
To thoroughly know the virtues of a  
medicine you must investigate the  
cures and see if they prove perma-  
nent. Doan's Kidney Pills stand this  
test, and plenty of proof exists right  
here in Jacksonville. People who  
testified years ago to relief from  
backache, kidney and urinary dis-  
orders, now declare that relief was  
permanent and the cure perfect. How  
can any Jacksonville sufferer longer  
doubt the evidence?

William T. Gibbons, living at 139  
East Wolcott street, Jacksonville, Ill.,  
says: "I wish the kidney sufferers  
of Jacksonville to know that the  
statement I made some years ago  
through the local papers that Doan's  
Kidney Pills, procured at the Arm-  
strongs drug store, had cured me of  
a severe kidney and back trouble  
was true in every particular. I have  
had no occasion to use a kidney  
remedy since."

cents. Foster-Milburn Co., Buffalo,

## SELLS-FLOTO CIRCUS HAS COME AND GONE

Parade Was Witnessed by Hundreds, While Both Performances at Park Were Well Attended—Indian Rider Meets With Accident.

The great Sells-Floto circus made its initial appearance in this city Friday and gave two performances before large audiences. On the whole the show was pretty good, but, of course, was not to be compared to Ringlings or Barnum.

The show arrived early in the morning over the Burlington from Canton, where they held two performances the day previous. The parade took place at 12 o'clock noon, and was witnessed by hundreds of people. Quite a number from the neighboring towns were attracted by the show and central park was crowded with people by 10 o'clock.

The parade was excellent and well pleased the many people that had waited several hours for it to appear. One of the horses in the parade slipped at the corner of the square and West State street and fell on its rider, an Indian. The man's leg was crushed, but he was able to keep in line, although he suffered much pain. The horses driven to the large wagon containing the jaguars became frightened on the southeast corner of the square and it looked at first as if there would be a runaway. The driver was unable to control the horses, but they were stopped by several men after they had run about a block.

The performance in the afternoon was greeted by an audience that completely filled the large tent and in the evening by another large crowd. The show has a number of good features, but the menagerie was very poor and a distinct disappointment. Some of the trained animals were fine, particularly the elephants and horses. The acrobatic work and trapeze performances were also excellent.

The show left early this morning over the Burlington for East St. Louis, where they give two performances.

## ILLINOIS WOMAN'S COLLEGE.

Opening days Sept. 14 and 15.

The college offers the best instruction in regular literary studies, and the very best advantages in music, domestic science, drawing and painting, and elocution.

The college is known everywhere as the largest and best school for young women in all the middle west, and draws students for more than a thousand miles. Young women in Jacksonville and Morgan county should not fail to share in its advantages.

Call at the college or call by phone or send for catalogue, to President Harker.

## A KIND ACT.

A reporter, who happened to be on East State street last evening after supper, noticed a cripple man who was endeavoring to get along in a hurry and was evidently trying to catch either a Burlington or a Chicago & Alton train. A cab driver who was going the same direction saw the fellow, and, stopping, allowed him to get in. It was a little act, but one that reflected what the whole world is yearning for—kindness. After all it is not the big things in life that count for the most, but the little acts of thoughtfulness. The deed is surely worthy of emulation.

## WEDDING WILL COME AS A SURPRISE

Clark Green of Near Woodson and Miss Eva Pence Granted License to Marry in Chicago.

The many friends of Mr. Clark Green and Miss Eva Pence, both of this county, will be surprised to hear of their marriage in Chicago Thursday. While no particulars are at hand it is supposed that the young people are married, as the Chicago Inter-Ocean printed their license yesterday.

The bride is one of Jacksonville's popular young ladies. Her home was formerly in Pittsfield, Pike County. She came to Jacksonville some time ago and was a student at the Business college, from which she graduated with high honors. For the past two years she has been the proficient stenographer for the F. G. Farrell & Co. bank, where her services were highly appreciated. She has been away on her vacation for the past few days.

The groom is the son of Mr. and Mrs. A. B. Green, residing near Woodson, and is a very capable young man, having many friends. Mrs. Green was communicated with late last night, but had heard nothing of the young people's marriage, but said she knew her son and Miss Pence were close friends. A host of friends here will wish them a happy and prosperous married life.

## MYSTERY TO EMPTY BOAT SOLVED

Illinois River Gives Up Body of Joe Hatfield of Naples Who Has Been Missing Since Tuesday.

About Tuesday noon Joe Hatfield of Naples pulled up to Meredosa in his boat and left there early in the afternoon for his home. He was seen by several different parties about 5 o'clock headed for Naples, but he did not reach home.

Wednesday morning a party set out in a gasoline launch to search for him and to drag the river for his body. The party found his boat near Mauvalterre creek. There were several packages in it, but it was minus one oar. The searchers continued their work without success until Friday morning, when the body was found shortly after the "Bald Eagle" went south, between 7 and 8 o'clock, near McGee's creek. It is supposed that the waves caused by the boat brought the body to the surface.

Decomposition had set in and advanced so far that it was deemed advisable to hold the inquest as soon as possible. The coroner was unable to get to Naples in time to hold the inquest, consequently "Squire" L. L. Grabbie acted as coroner and the jury returned a verdict of accidental drowning, in the absence of any evidence as to the nature of the deceased's death. The funeral was held at 3 p. m. Friday.

Mr. Hatfield is survived by his mother, Mrs. Emma Hatfield, and several brothers. He was unmarried and so far as can be learned leaves no other near relations.
